Subject: calls from the spanish hotline

Here is a summary of two new calls from the hotline. Should I send these queries to Victor or Pat, or someone else? Thanks, Ted

1. The following resident has not received an access letter but would like to his property to be sampled for contamination:

Eleazar Mendoza
3733 Lafayette Street
Denver, CO 80305

**PUBLIC
DOCUMENT**

2. Regarding the call Victor forwarded to the hotline today, the individual did not leave a phone number and I could not understand his name. However, I was able to understand that he would like to get his soil cleaned up at his property at 4950 Steele Street. Probably want to check to see if samples have been taken and if not, put him on the list of properties to be sampled. Also if you see a phone number listed for the above address please let me know so I can contact him.

Cheers,

Ted
